

THE EARNED EFFECT STUDY

TW + **IPA**
SC Incorporated
by Royal Charter

+ Key findings

THE WEBER SHANDWICK COLLECTIVE EARNED EFFECT STUDY, CONDUCTED IN PARTNERSHIP WITH THE IPA, EXPLORES THE IMPACT OF CAMPAIGNS THAT EARN COVERAGE AND CONVERSATION ON BUSINESS PERFORMANCE. IT EVALUATED GLOBAL CASE STUDIES OVER A 10-YEAR PERIOD ACROSS BRANDS AND CATEGORIES.

Campaigns that earn *coverage and conversation*

have a **DISPROPORTIONATE** business impact.

IT PAYS TO EARN IT.

57%

Drove very large sales gains and

40%

Drove very large market share gains

They are **more likely** to drive very large business effects by

53%

AND

2.6x

more likely to achieve very large profit growth

THEY ARE

75%

more likely to create *halo effects* across other products in the franchise

THEY DO SO

more efficiently

(42% BASED ON REPORTED ROI)...

and even in the most unfavorable conditions:

78% were in stagnant, declining or low growth markets
